Dear Parents and Guardians,

RE: Progress Update on the Building Improvement Works at Campsbourne Primary School

I'm writing with an update on the progress being made with the building improvement works at Campsbourne Primary School.

Since my last correspondence, I'm very pleased to inform you that works to replace the emergency lighting and windows, repair the boiler and heating pipework and reinforce the foundations of the boundary wall have all taken place during the summer break.

These works were done over the school holidays to minimise any prospective disruption to the on-site learning and teaching for pupils and staff when the autumn began earlier this month.

The next stage of these works will include decorating, reception entrance, underground drainage and replacing more windows.

Repairs to the various boundary walls and fencing along the pedestrian pathway on Nightingale Road and Eastfield Road will also be undertaken as part of this forthcoming phase.

We anticipate the remainder of this project to be completed by March 2024.

I sincerely apologise for any disruption or inconvenience that the school's parents/carers, staff and the wider community may have experienced due to these ongoing building improvement works at Campsbourne Primary.

We readily understand your frustration and are acutely aware of the challenges faced by Campsbourne pupils, parents/carers and school staff at this time.

We appreciate your continued patience and understanding throughout this process and remain committed to completing these building improvement works to the highest standards, resulting in a much-improved learning and teaching environment for Campsbourne pupils and staff alike.

We will continue to keep you updated on the progress of this project and should you have any queries, please don't hesitate to reach out to us on the above number.

Yours sincerely,

Hamza Farah
